AOCS Staff

Managing Editor, George Willhite; *Staff Editor,* Lisa Suntrup; *Publication Supervisor,* Lee Heissel; *Graphics Supervisor,* Lee Gross
American Oil Chemists' Society, P.O. Box 3489, Champaign, IL 61821-0489 USA
Telephone 217-359-2344

Lipids (ISSN:0024-4201) is published monthly by the American Oil Chemists' Society at 1608 Broadmoor Drive, Champaign, IL 61821-0489. Annual subscription rate for AOCS U.S. members is $25.00, for non-U.S. members $35.00. Nonmember subscriptions are $35.00 for one year or $95.00 for three years. Libraries/Institutions rates are $125.00 for one year and $340.00 for three years; there is also an additional postage charge of $15.00 per year for nonmember subscriptions from foreign countries. Optional air mail delivery is $60.00 per year. Second-class postage paid at Champaign, IL, and additional mailing offices. POSTMASTER: Send address changes to P.O. Box 3489, Champaign, IL 61821-0489 USA. The American Oil Chemists' Society and the Editor of *Lipids* cannot assume responsibility for statements and opinions advanced by contributors.

Editorial information. Current instructions to authors are printed in *Lipids,* Vol. 22, pp. iii-vi (January 1987). Manuscripts intended for publication should be submitted, in quadruplicate, to the Editor, Wolfgang J. Baumann, at the Hormel Institute. Correspondence regarding manuscripts in the reviewing process should be directed to the Editorial Assistant. Correspondence concerning page proofs should be addressed to the Managing Editor, G. Willhite, at the AOCS office. Page charges of $55.00 per printed page are expected to be paid for papers published in *Lipids;* payment of page charges will not affect review and publication of papers.

Correspondence concerning new subscriptions, subscription renewals, changes of address and claims for missing issues should be addressed to Circulation Department, *Lipids,* American Oil Chemists' Society, P.O. Box 3489, Champaign, IL 61821-0489 USA. Requests for changes of address must include both old and new addresses, including zip codes, and a recent mailing label; notices must be received 30 days before the date of issue. Claims for missing issues must be received by the Circulation Department within 30 days (90 days for foreign subscriptions).

Lipids

Contents
Volume 22 (1987)

iii–vi *Lipids* Guide for Authors

1–5 **Bile Lipid Secretion in Isolated Perfused Rat Liver. A Model for Metabolic Studies**
J.C. Henry, N. Domingo, F. Chanussot, H. Lafont, J.C. Hauton and J.P. Cano

6–10 **Activities of Liver Mitochondrial and Peroxisomal Fatty Acid Oxidation Enzymes in Rats Fed *trans* Fat**
T. Ide, M. Watanabe, M. Sugano and I. Yamamoto

11–16 **Epicuticular Waxes of Maize as Affected by the Interaction of Mutant *gl8* with *gl2*, *gl3*, *gl4* and *gl15***
P. Avato, G. Bianchi, A. Nayak, F. Salamini and E. Gentinetta

17–21 **The Major Gangliosides of the Bovine Pineal Body**
M.M. Whalen and G.C. Wild

22–27 **Onset and Persistence of Changes in Intestinal Transport Following Dietary Fat Manipulation**
A.B.R. Thomson, M. Keelan and M.T. Clandinin

28–32 **Intestinal Cholesterol and Oleic Acid Uptake from Solutions Supersaturated With Lipids**
M.O. Reynier, C. Crotte, J.C. Montet, P. Sauve and A. Gerolami

33–40 **Intestinal Absorption of Ester and Ether Glycerophospholipids in Guinea Pig. Role of a Phospholipase A_2 from Brush Border Membrane**
A. Diagne, S. Mitjavila, J. Fauvel, H. Chap and L. Douste-Blazy

41–44 **Effect of Lecithin on the Release of 5'-Nucleotidase from Liver Plasma Membrane of Rat by Bile Acids**
M. Nokubo

45–50 **Asymmetric Distribution of Arachidonic and n-3 Polyunsaturated Fatty Acids in Rat Liver Microsomal Membranes Under a Fat-Free Diet**
N. Iritani, H. Mizoguchi and M. Kitaya

51–57 **Lipids from *Plasmodium vinckei*-Infected Erythrocytes and Their Susceptibility to Oxidative Damage**
R. Stocker, W.B. Cowden, R.L. Tellam, M.J. Weidemann and N.H. Hunt

58–60 **A Micromethod for the Estimation of Blood Dolichol**
G.N. Morris and R.K. Pullarkat

61–63 **Improved Enzymatic Hydrolysis of Conjugated Bile Acids**
W.E. Highsmith Jr. and P.M. Hyde

64 **Author Index**

69–75 **Tissue Distribution of Phytanic Acid and Its Analogues in a Kinship with Refsum's Disease**
J.K. Yao and P.J. Dyck

76–79 **Ether Glycerophospholipids of Gills of Two Pacific Crabs, *Cancer antennarius* and *Portunus xantusi***
S. Chapelle, J.L. Hakanson, J.C. Nevenzel and A.A. Benson

80–83 **Free and Esterified Sterols of Cotton Buds and Anthers**
W.R. Lusby, J.E. Oliver, G.H. McKibben and M.J. Thompson

84–87 **Metabolism of Sterols of Varying Ring Unsaturation and Methylation by *Caenorhabditis elegans***
R. Lozano, T.A. Salt, D.J. Chitwood, W.R. Lusby and M.J. Thompson

88–94 **The Effects of Fat-Free, Saturated and Polyunsaturated Fat Diets on Rat Liver and Plasma Lipids**
G.J. Nelson, D.S. Kelley, P.C. Schmidt and C.M. Serrato

95–103 **The Effect of Mengovirus Infection on Lipid Synthesis in Cultured Ehrlich Ascites Tumor Cells**
H. Schimmel and P. Traub

104–107 **Measurement of Free and Bound Malondialdehyde in Vitamin E-Deficient and -Supplemented Rat Liver Tissues**
H.-S. Lee and A.S. Csallany

108–115 **Cholesteryl Esterase Activities in Ventricles, Isolated Heart Cells and Aorta of the Rat**
H. Stam, S. Broekhoven-Schokker, K. Schoonderwoerd and W.C. Hülsmann

116–120 **Resolution of Radiolabeled Molecular Species of Phospholipid in Human Platelets: Effect of Thrombin**
A.D. Purdon, D. Patelunas and J.B. Smith

121–124 **Oleic Acid Modulates the Partitioning of Cholesterol from Micellar Bile Salt Solution**
K. Chijiiwa

125–128 **Electrochemical Detection of Phospholipid Hydroperoxides in Reverse-Phase High Performance Liquid Chromatography**
K. Yamada, J. Terao and S. Matsushita

129 **Author Index**

133–138 **Effects of Parenteral Nutrition with High Doses of Linoleate on the Developing Human Liver and Brain**
M. Martínez and A. Ballabriga

139–143 **Time Course of Incorporation of 20-Carbon Polyunsaturated Fatty Acids in a Human Keratinocyte Cell Line**
K. Punnonen, T. Puustinen and C.T. Jansén

144–147 **The Formation of Lysophosphatidylinositol Phosphate in Human Platelet Microsomes**
L.M. Thomas and B.J. Holub

148–151 **Effect of Hypothyroidism on the Lipid Composition of Rat Plasma and Erythrocyte Membranes**
F.M. Ruggiero, G.V. Gnoni and E. Quagliariello

152–155 **Role of the Lymphatic System in the Transport of Absorbed 7,12-Dimethylbenzanthracene in the Rat**
J.M. Laher and J.A. Barrowman

156–158 **Nonenzymatic Hydrolysis of Phosphatidylcholine Prepared as Liposomes and Mixed Micelles**
R.J.Y. Ho, M. Schmetz and D.W. Deamer

159–162 **Platelet Changes after a Saturated Fat Meal and Their Prevention by Dazmegrel, a Thromboxane Synthetase Inhibitor**
J.J.F. Belch, A.R. Saniabadi, K. McLaughlin and C.D. Forbes

163–172 **Biokinetics of and Discrimination Between Dietary *RRR*- and *SRR*-α-Tocopherols in the Male Rat**
K.U. Ingold, G.W. Burton, D.O. Foster, L. Hughes, D.A. Lindsay and A. Webb

173–177 **Studies of Lipoproteins and Fatty Acids in**

Maternal and Cord Blood of Two Racial Groups in Trinidad
G.O. Taylor, J.J. Albers, G.R. Warnick, J.L. Adolphson, H. McFarlane, D.R. Sullivan, C.E. West, V. Sri-Hari and R. Edwards

178–184 **Membrane Fatty Acid Modification in Tumor Cells: A Potential Therapeutic Adjunct**
C.P. Burns and A.A. Spector

185–189 **Biochemical Characterization of Acetyl-CoA:1-Alkyl-2-Lyso-*sn*-Glycero-3-Phosphocholine Acetyltransferase**
K. Seyama and T. Ishibashi

190–194 **Two New Icosapentaenoic Acids from the Temperate Red Seaweed *Ptilota filicina* J. Agardh**
A. Lopez and W.H. Gerwick

195–200 **Analysis of Volatile Fatty Acids in Biological Specimens by Capillary Column Gas Chromatography**
S.E. Fleming, H. Traitler and B. Koellreuter

201–205 **The Use of Iodine Staining for the Quantitative Analysis of Lipids Separated by Thin Layer Chromatography**
G. Palumbo and F. Zullo

206–211 **Measurement of Lipid Peroxidation In Vivo: A Comparison of Different Procedures**
A. Pompella, E. Maellaro, A.F. Casini, M. Ferrali, L. Ciccoli and M. Comporti

212 **Author Index**

217–223 **Hepatic Lipid Abnormalities in a Chemical/Viral Mouse Model for Reye's Syndrome**
M.G. Murphy, L. Archambault-Schertzer, J. VanKessel, S.C. Digout, D.A. Malatjalian and J.F.S. Crocker

224–228 **Mass Spectra of the Picolinyl Esters of Isomeric Mono- and Dienoic Fatty Acids**
W.W. Christie, E.Y. Brechany and R.T. Holman

229–235 **Characterization of Feline Omentum Lipids**
R.H. McCluer, J.E. Evans, M. Williams, A.L. Griffith and N. Catsimpoolas

236–240 **Phospholipid Studies of Marine Organisms: 14. Ether Lipids of the Sponge *Tethya aurantia***
G.M. Smith and C. Djerassi

241–249 **Influence of Environmental Medium on Fatty Acid Composition of Human Cells: Leukocytes and Fibroblasts**
B. Delplanque and B. Jacotot

250–252 **Short-term Biological Reproducibility of Serum Fatty Acid Composition in Children**
T. Moilanen

253–260 **Effects of Aging on the Composition and Metabolism of Docosahexaenoate-Containing Lipids of Retina**
N.P. Rotstein, M.G. Iincheta de Boschero, N.M. Giusto and M.I. Aveldaño

261–265 **Calmodulin Antagonists Suppress Cholesterol Synthesis by Inhibiting Sterol Δ^{24} Reductase**
I. Filipovic and E. Buddecke

266–273 **Liver Parenchymal Cells Differ from the Fat-storing Cells in Their Lipid Composition**
H.F.J. Hendriks, P.J.A.M. Brekelmans, R. Buytenhek, A. Brouwer, A.M. de Leeuw and D.L. Knook

274–277 **Two Procedures to Remove Polar Contaminants from a Crude Brain Lipid Extract by Using Prepacked Reversed-phase Columns**
T. Kyrklund

278–281 **Fate of 7,12-Dimethylbenz(*a*)anthracene Absorbed from the Rat Intestine and Transported in Chylomicrons**
M.B. Lindstrom, J.A. Barrowman and B. Borgstrom

282–284 **Effect of Environmental Temperature Changes on Liver $\Delta 6$ and $\Delta 5$ Fatty Acid Desaturases Depressed by Hyperglycidic Diet on Male Rats**
A. Ves Losada and R.O. Peluffo

285–287 **1-Acyl-2-acetyl-*sn*-glycero-3-phosphocholine from Stimulated Human Polymorphonuclear Leukocytes**
K. Satouchi, M. Oda and K. Saito

288 **Author Index**

293–298 **Acyltransferases in Subcellular Fractions of Developing Seeds of Rape (*Brassica napus* L.)**
D.J. Murphy and K.D. Mukherjee

299–304 **The Kinetics of the Autoxidation of Polyunsaturated Fatty Acids**
J.P. Cosgrove, D.F. Church and W.A. Pryor

305–311 **Net Lipid Transfer Between Lipoproteins in Fish-Eye Disease Plasma Supplemented with Normal High Density Lipoproteins**
L. Holmquist and L.A. Carlson

312–317 **Periodate-Induced Lipid Oxidation of Erythrocyte Membranes**
M. Beppu and K. Kikugawa

318–321 **Comparison of the Clearances of Serum Chylomicron Triglycerides Enriched with Eicosapentaenoic Acid or Oleic Acid**
I.S. Chen, T. Le, S. Subramanian, M.M. Cassidy, A.J. Sheppard and G.V. Vahouny

322–327 **Thermal and Metal-Catalyzed Decomposition of Methyl Linolenate Hydroperoxides**
E.N. Frankel, W.E. Neff, E. Selke and D.D. Brooks

328–332 **Efficacy of Linoleic Acid Administered Rectally as Monoglyceride**
A. Christophe, E.G. Hill and R.T. Holman

333–337 **Platelet-Activating Factor Modulates Phospholipid Acylation in Human Neutrophils**
J. Tou

338–344 **The Influence of Dietary Fat on the Lipogenic Activity and Fatty Acid Composition of Rat White Adipose Tissue**
G.J. Nelson, D.S. Kelley, P.C. Schmidt and C.M. Serrato

345–350 **Effect of Age and Dietary Fat (Fish, Corn and Coconut Oils) on Tocopherol Status of C57BL/6Nia Mice**
S.N. Meydani, A.C. Shapiro, M. Meydani, J.B. Macauley and J.B. Blumberg

351–357 **Phosphatidylcholine as the Choline Donor in Sphingomyelin Synthesis**
C.M. Eppler, B. Malewicz, H.M. Jenkin and W.J. Baumann

358–361 **Rapid Analysis of Jojoba Wax Fatty Acids and Alcohols After Derivatization Using Grignard Reagents**
M. Pina, D. Pioch and J. Graille

362–365 **High Performance Liquid Chromatographic Analysis of 1-Alkyl-2-acyl- and 1-Alkyl-3-acyl-*sn*-glycerols**
T.A. Foglia, P.D. Vail and T. Iwama

366–374 **Quantitation of Baboon Lipoproteins by High Performance Gel Exclusion Chromatography**
M.C. Williams, R.S. Kushwaha and H.C. McGill Jr.

375 **Author Index**

381–385 **Plasma and Lipoprotein Fatty Acid Composition in Glycogen Storage Disease Type I**
E. Levy, J. Letarte, G. Lepage, L. Thibault and

C.C. Roy

386–396 **Growth Support and Metabolism of Phytosterols in *Paramecium tetraurelia***
B.D. Whitaker and D.L. Nelson

397–400 **Electron Microscopic Cytochemistry of Cyclopropenoids in Cottonseed (*Gossypium hirsutum* L.) Tissues**
L.Y. Yatsu and H.W. Kircher

401–408 **Lipid Peroxidation in Erythrocyte Membranes: Cholesterol Product Analysis in Photosensitized and Xanthine Oxidase-Catalyzed Reactions**
A.W. Girotti, G.J. Bachowski and J.E. Jordan

409–412 **Loss of NADPH During Assays of HMG-CoA Reductase: Implications and Approaches to Minimize Errors**
G.C. Ness, L.C. Pendleton and A.S. Pendleton

413–416 **Analysis of Lipids Containing Hydroxy Fatty Acids**
F. Ahmad, R. Maier, K.D. Mukherjee and H.K. Mangold

Specialty Lipids and Their Biofunctionality
Symposium held at the 76th AOCS Annual Meeting in Philadelphia, Pennsylvania, May 1985

417–420 **Medium Chain Triglycerides and Structured Lipids**
V.K. Babayan

421–423 **Medium Chain Triglycerides and Structured Lipids as Unique Nonglucose Energy Sources in Hyperalimentation**
E.A. Mascioli, B.R. Bistrian, V.K. Babayan and G.L. Blackburn

424–428 **Absorption of Safflower Oil and Structured Lipid Preparations in Patients with Cystic Fibrosis**
V.S. Hubbard and M.C. McKenna

429–434 **Medium Chain Triglyceride in Early Life: Effects on Growth of Adipose Tissue**
S.A. Hashim and P. Tantibhedyangkul

435–441 **The Effect of Medium and Long Chain Triglyceride on Human Adipose Tissue Metabolism**
D.P. Katz and J.L. Knittle

442–444 **Role of Brown Adipose Tissue in Thermogenesis Induced by Overfeeding a Diet Containing Medium Chain Triglyceride**
N. Baba, E. Filippo Bracco and S.A. Hashim

445–454 **Effects of Fatty Acids on Gap Junctional Communication: Possible Role in Tumor Promotion by Dietary Fat**
C.F. Aylsworth, C.W. Welsch, J.J. Kabara and J.E. Trosko

455–461 **The Influence of Dietary Medium Chain Triglycerides on Rat Mammary Tumor Development**
L.A. Cohen and D.O. Thompson

462 **Erratum**

463 **Author Index**

469–473 **Chiral Discrimination in the Exchange of α-Tocopherol Stereoisomers Between Plasma and Red Blood Cells**
S.C. Cheng, G.W. Burton, K.U. Ingold and D.O. Foster

474–479 **Effects of Phorbol Esters, A23187 and Vasopressin on Oleate Metabolism in Isolated Rat Hepatocytes**
T. Nomura, M. Tachibana, H. Nomura, M. Chihara and Y. Hagino

480–489 **FAB MS/MS for Phosphatidylinositol, -glycerol, -ethanolamine and Other Complex Phospholipids**
N.J. Jensen, K.B. Tomer and M.L. Gross

490–494 **Fatty Acid Composition of Seeds from the Australian *Acacia* Species**
A.J. Brown, V. Cherikoff and D.C.K. Roberts

495–504 **Metabolism in Humans of *cis*-12,*trans*-15-Octadecadienoic Acid Relative to Palmitic, Stearic, Oleic and Linoleic Acids**
E.A. Emken, W.K. Rohwedder, R.O. Adlof, H. Rakoff and R.M. Gulley

505–512 **Tamoxifen-Induced Modification of Serum Lipoprotein Phospholipids in the Cockerel**
W.C. Breckenridge and C.B. Lazier

513–516 **Effect of Cholestyramine on Bile Acid Metabolism in Conventional Rats**
Y. Imai, S. Kawata, M. Inada, S. Miyoshi, Y. Minami, Y. Matsuzawa, K. Uchida and S. Tarui

517–522 **Effect of Dietary Lipids on the Lipid Composition and Phospholipid Deacylating Enzyme Activities of Rat Heart**
J. Leonardi, E. Termine, F. Morand, R. Lafont, H. Portugal, H. Lafont and G. Nalbone

523–529 **Effects on Plasma Lipids and Fatty Acid Composition of Very Low Fat Diets Enriched with Fish Or Kangaroo Meat**
A.J. Sinclair, K. O'Dea, G. Dunstan, P.D. Ireland and M. Niall

530–534 **Effect of Choline, Ethanolamine and Serine Supplementation on the Membrane Properties of *Microsporum gypseum***
R. Pandey, R.S. Verma and G.K. Khuller

535–538 **Slow Recovery of the Fatty Acid Composition of Sciatic Nerve in Rats Fed a Diet Initially Low in n-3 Fatty Acids**
J.M. Bourre, A. Youyou, G. Durand and G. Pascal

539–541 **An Improved Method for the Colorimetric Assay of Lipase Activity Using an Optically Clear Medium**
G. Renard, J. Grimaud, A. El Zant, M. Pina and J. Graille

542–543 **Lack of Regression of Preestablished Gallstones in Mice**
A.C. Beynen

544–546 **Purification of High Affinity Fatty Acid Receptors in Rat Myocardial Sarcolemmal Membranes**
S. Fujii, H. Kawaguchi and H. Yasuda

547 **Author Index**

553–558 **In Vivo Incorporation of Labeled Fatty Acids in Rat Liver Lipids After Oral Administration**
J. Leyton, P.J. Drury and M.A. Crawford

559–565 **Partial Purification and Characterization of Free and Immobilized Lipases from *Mucor miehei***
B. Huge-Jensen, D. Rubano Galluzzo and R.G. Jensen

566–571 **Effects of Triton WR 1339 and Orotic Acid on Lipid Metabolism in Rats**
N. Takeuchi, M. Murase, Y. Nomura, H. Takase and K. Uchida

572–577 **Alteration of Hepatic Phospholipids in Rats and Mice by Feeding Di-(2-Ethylhexyl)Adipate and Di-(2-Ethylhexyl)Phthalate**
T. Yanagita, M. Satoh, H. Nomura, N. Enomoto and M. Sugano

578–582 **Derivatization of Keto Fatty Acids, X: Synthesis of Thiazanones**
A. Khan, S. Rafat Husain, F. Ahmad, M.S. Siddiqui and W. Pimlott

583–588 **Effect of Cold Environment on Hepatic Micro-**

somal Δ6 and Δ9 Desaturase Activity of Male Rats
A. Ves Losada and R.O. Peluffo

589–595 Formation of Diacyl and Alkylacyl Glycerophosphocholine in Rabbit Alveolar Macrophages
T. Sugiura, N. Sekiguchi, Y. Nakagawa and K. Waku

596–600 Rapid Separations of Diacyl- and Dialkylglycerol Enantiomers by High Performance Liquid Chromatography on a Chiral Stationary Phase
T. Takagi and Y. Itabashi

600 Erratum

601 Author Index

609–612 Lipid Composition and Amino Acid Transport in a Nystatin-Resistant Mutant of *Aspergillus niger*
C. Mazumder, M. Kundu,, J. Basu and P. Chakrabarti

613–619 Interaction of (n-3) and (n-6) Fatty Acids in Desaturation and Chain Elongation of Essential Fatty Acids in Cultured Glioma Cells
H.W. Cook and M.W. Spence

620–626 Labeled Oxidation Products from [1-^{14}C], [U-^{14}C] and [16-^{14}C]Palmitate in Hepatocytes and Mitochondria
C. Chatzidakis and D.A. Otto

627–636 Cholesterol Autoxidation in Phospholipid Membrane Bilayers
A. Sevanian and L.L. McLeod

637–642 Liver Subcellular Fatty Acid Profiles of Chicks Fed Diets Containing Hydrogenated Fats and Varying Linoleate Levels
A.M. Rogel and B.A. Watkins

643–646 Response of Urinary Malondialdehyde to Factors that Stimulate Lipid Peroxidation in Vivo
S.N. Dhanakoti and H.H. Draper

647–650 Effects of Diets Enriched in Eicosapentaenoic or Docosahexaenoic Acids on Prostanoid Metabolism in the Rat
K.D. Croft, L.J. Beilin, F.M. Legge and R. Vandongen

651–656 Lipid Composition of Cultured B16 Melanoma Cell Variants with Different Lung-colonizing Potential
L. Calorini, A. Fallani, D. Tombaccini, G. Mugnai and S. Ruggieri

657–663 [^{3}H]Cholesterol Transfer from Microemulsion Particles of Different Sizes to Human Fibroblasts
S. Ekman

664–666 Mass Spectra of the Picolinyl Ester Derivatives of Some Non-Methylene-Interrupted Octadecadienoic Acids
W.W. Christie, E.Y. Brechany, F.D. Gunstone, M.S.F. Lie Ken Jie and R.T. Holan

667–668 Isolation and Quantitation of Lectins From Vegetable Oils
D.M. Klurfeld and D. Kritchevsky

669–671 Deconjugation of Bile Acids by Human Intestinal Bacteria Implanted in Germ-Free Rats
T. Chikai, H. Nakao and K. Uchida

672–676 Phosphocholine Phosphatase and Alkaline Phosphatase Are Different Enzymes in Hamster Heart
G.M. Hatch and P.C. Choy

677–679 The Activity and Properties of a Hepatic Acid Cholesteryl Ester Hydrolase Obtained from Rats of Different Age Groups
M. Tanaka, T. Iio and T. Tabata

680 Erratum

681 Author Index

689–697 Monohydroperoxides of Linoleic Acid in Endoplasmic Lipids of Rats Exposed to Tetrachloromethane
H. Frank, M. Wiegand, M. Strecker and D. Thiel

698–703 Lipid Composition of *Bacillus megaterium* Spores and Spore Membranes
M. Nikolopoulou and J.C. Vary

704–710 Abnormal Metabolism of Polyunsaturated Fatty Acids and Phospholipids in Diabetic Glomeruli
T. Kanzaki, Y. Ishikawa, N. Morisaki, K. Shirai, Y. Saito and S. Yoshida

711–714 Enteral Absorption in Man of Eicosapentaenoic Acid in Different Chemical Forms
S. El Boustani, C. Colette, L. Monnier, B. Descomps, A. Crastes de Paulet and F. Mendy

715–720 Sterol and Phospholipid Acyl Chain Alterations in *Saccharomyces cerevisiae* Secretion Mutants as a Function of Temperature Stress
C. Low and L.W. Parks

721–730 Cyclic Fatty Esters: Hydroperoxides from Autoxidation of Methyl 9-(6-Propyl-3-Cyclohexenyl)-(Z)8-Nonenoate
R.A. Awl, E.N. Frankel and D. Weisleder

731–735 Characterization of Phospholipase A_2 from Rabbit Lung Microsomes
O.M.O. Filgueiras and F. Possmayer

736–743 Interferon α/β Induces Changes in the Metabolism of Polyenoic Phospholipids and Diacylglycerols in the Livers of Suckling Mice
G. Zwingelstein, G. Brichon, R. Meister, C. Maury and I. Gresser

744–750 New Findings in the Fatty Acid Composition of Individual Platelet Phospholipids in Man after Dietary Fish Oil Supplementation
T.A. Mori, J.P. Codde, R. Vandongen and L.J. Beilin

751–756 Rapid Isolation of Microsomes for Studies of Lipid Peroxidation
P.W. Albro, J.T. Corbett and J.L. Schroeder

757–759 The Differential Effect of Polymyxin B, on Guinea Pig Lung Mitochondrial and Microsomal Glycerophosphate Acyltransferase
S.K. Das and D. Haldar

760–763 A Facile Synthesis and Carbon-13 Nuclear Magnetic Resonance Spectral Properties of 7-Ketocholesteryl Benzoate
E.J. Parish, T.-Y. Wei and P. Livant

764–766 Immunocytochemical Localization of Lingual Lipase in Serous Cells of the Developing Rat Tongue
I.M. Roberts, L.E. Nochomovitz, R. Jaffe, S.I. Hanel, M. Rojas and R.A. Agostini Jr.

767–769 Isoprenoid Fatty Acids From Marine Sponges. Are Sponges Selective?
N.M. Carballeira, L. Maldonado and B. Porras

771 Author Index

Ether Lipids in Oncology
Proceedings of the First International Symposium on Ether Lipids in Oncology held in Gottingen, Federal Republic of Germany, December, 1986

v Editorial

ix Foreword

787–788 Ether Lipids in Oncology–Welcoming Address
O. Westphal

789–799 Biotransformation of Ether Lipids. A Review
H.K. Mangold and N. Weber

CONTENTS

800–807 **The Degradation of Platelet Activating Factor and Related Lipids: Susceptibility to Phospholipases C and D**
R.W. Wilcox, R.L. Wykle, J.D. Schmitt and L.W. Daniel

808–812 **Enzymatic Acylation of Ether and Ester Lysophospholipids in Rat Liver Microsomes**
W. Neumüller, E.A.M. Fleer, C. Unger and H. Eibl

813–819 **Increased Membrane Permeability for an Antitumoral Alkyl Lysophospholipid in Sensitive Tumor Cells**
J. Storch and P.G. Munder

820–823 **Accumulation of an Alkyl Lysophospholipid in Tumor Cell Membranes Affects Membrane Fluidity and Tumor Cell Invasion**
W.J. van Blitterswijk, H. Hilkmann and G.A. Storme

824–830 **A Continuous Assay for *O*-Alkylglycerol Monooxygenase (E.C. 1.14.16.5)**
J. Kötting, C. Unger and H. Eibl

831–835 **Substrate Specificity of *O*-Alkylglycerol Monooxygenase (E.C. 1.14.16.5)**
J. Kotting, C. Unger and H. Eibl

836–841 **Differential Effects of Ether Lipids on the Activity and Secretion of Interleukin-1 and Interleukin-2**
R. Andreesen and V. Giese

842–846 **A Metabolite of an Antineoplastic Ether Phospholipid May Inhibit Transmembrane Signalling Via Protein Kinase C**
W.J. van Blitterswijk, R.L. van der Bend, ÏJ.M. Kramer, A.J. Verhoeven, H. Hilkmann and J. de Widt

847–850 **Effect of Lipid Derivatives on Invasion in Vitro and on Surface Glycoproteins of Three Rodent Cell Types**
G.A. Storme, E.A. Bruyneel, D.C. Schallier, J.G. Bolscher, W.E. Berdel and M.M. Mareel

851–855 **Ether Lipids Inhibit the Effects of Phorbol Diester Tumor Promoters**
L.W. Daniel, L.A. Etkin, B.T. Morrison, J. Parker, S. Morris-Natschke, J.R. Surles and C. Piantadosi

856–861 **Metabolism of Ether Phospholipids and Analogs in Neoplastic Cells**
E.A.M. Fleer, C. Unger, D.-J. Kim and H. Eibl

862–867 **Antitumor Activity of Synthetic Alkylphospholipids With or Without PAF Activity**
I. Kudo, S. Nojima, H.W. Chang, R. Yanoshita, H. Hayashi, E. Kondo, H. Nomura and K. Inoue

868–870 **Effect of Synthetic Phospholipids on Platelet Aggregation and Serotonin Release**
U. Söling, H. Eibl, G.A. Nagel and C. Unger

871–877 **Immunomodulatory and Therapeutic Properties of Alkyl Lysophospholipids in Mice**
J.E. Talmadge, M. Schneider, B. Lenz, H. Phillips and C. Long

878–883 **Neoplastic Cell Inhibition with New Ether Lipid Analogs**
A. Noseda, M.E. Berens, C. Piantadosi and E.J. Modest

884–890 **Antitumor Activity of SRI 62-834, a Cyclic Ether Analog of ET-18-OCH$_3$**
W.J. Houlihan, M.L. Lee, P.G. Munder, G.M. Nemecek, D.A. Handley, C.M. Winslow, J. Happy and C. Jaeggi

891–896 **Liposomes in Chemo- and Immunotherapy of Cancer**
G.L. Scherphof, T. Daemen, H.H. Spanjer and F.H. Roerdink

897–903 **Cytostatic Activity of Synthetic *O*-Alkylglycerolipids**
H. Brachwitz, P. Langen, D. Arndt and I. Fichtner

904–910 **Cytotoxic Effects of Ether Lipids and Derivatives in Human Nonneoplastic Bone Marrow Cells and Leukemic Cells in Vitro**
H.D. Schick, W.E. Berdel, M. Fromm, U. Fink, U. Jehn, K. Ulm, A. Reichert, H. Eibl, C. Unger and J. Rastetter

911–915 **Structure-Cytotoxicity Studies on Alkyl Lysophospholipids and Some Analogs in Leukemic Blasts of Human Origin in Vitro**
S. Danhauser, W.E. Berdel, H.D. Schick, M. Fromm, A. Reichert, U. Fink, R. Busch, H. Eibl and J. Rastetter

916–918 **Antineoplastic Activity of the Thioether Lysophospholipid Derivative BM 41.440 in Vitro**
M. Fromm, W.E. Berdel, H.D. Schick, U. Fink, W. Pahlke, U. Bicker, A. Reichert and J. Rastetter

919–924 **Experimental Studies on the Role of Alkyl Lysophospholipids in Autologous Bone Marrow Transplantation**
W.R. Vogler, A.C. Olson, S. Okamoto, L.B. Somberg and L. Glasser

925–926 **Distribution and Metabolism of Hexadecylphosphocholine in Mice**
A. Breiser, D.-J. Kim, E.A.M. Fleer, W. Damenz, A. Drube, M. Berger, G.A. Nagel, H. Eibl and C. Unger

927–929 **Therapeutic Activity of ET-18-OCH$_3$ and Hexadecylphosphocholine Against Mammary Tumors in BD-VI Rats**
H.R. Scherf, B. Schuler, M.R. Berger and D. Schmähl

930–934 **Alkylphosphocholines: Toxicity and Anticancer Properties**
C. Muschiol, M.R. Berger, B. Schuler, H.R. Scherf, F.T. Garzon, W.J. Zeller, C. Unger, H.J. Eibl and D. Schmahl

935–942 **Modulation of Chemical Carcinogenesis in Rats by Alkyl Lysophospholipids**
M.R. Berger and D. Schmähl

943–946 **Antineoplastic Activity of Conjugates of Lipids and 1-β-D-Arabinofuranosylcytosine**
W.E. Berdel, S.D. Danhauser, H.D. Schick, C.I. Hong, C.R. West, M. Fromm, U. Fink, A. Reichert and J. Rastetter

947–951 **Synthesis of Thioether Phosphocholine Analogues**
E. Bosies, D.B.J. Herrmann, U. Bicker, R. Gall and W. Pahlke

952–954 **Pharmacokinetics of the Thioether Phospholipid Analogue BM 41.440 in Rats**
D.B.J. Herrmann, E. Besenfelder, U. Bicker, W. Pahlke and E. Bohm

955–957 **Cytotoxic Activity of the Thioether Phospholipid Analogue BM 41.440 in Primary Human Tumor Cultures**
D.B.J. Herrmann and H.A. Neumann

958–961 **In Vitro and In Vivo Cytotoxicity of Alkyl Lysophospholipid ET-18-OCH$_3$ and Thioether Lipid BM 41.440**
G.H. Leder, H.H. Fiebig, E. Wallbrecher, B.R. Winterhalter and G.W. Löhr

962–966 **Phase I Trial of the Thioether Phospholipid Analogue BM 41.440 in Cancer Patients**
D.B.J. Herrmann, H.A. Neumann, W.E. Berdel, M.E. Heim, M. Fromm, D. Boerner and U. Bicker

967–969 **Clinical Phase I Pilot Study of the Alkyl Lysophospholipid Derivative ET-18-OCH$_3$**

W.E. Berdel, U. Fink and J. Rastetter
970–973 **Ether Lipids and Analogs in Experimental Cancer Therapy. A Brief Review of the Munich Experience**
W.E. Berdel
974 **Ether Lipids in Oncology–Concluding Remarks**
O. Westphal
975 **Author Index**
983–986 **A Suggested Shorthand Nomenclature for the Eicosanoids**
D.L. Smith and A.L. Willis
987–993 **Hydroxylation of Fatty Acids and Alcohols by Hepatic Microsomal Cytochrome P-450 System from the Mongolian Gerbil**
Y. Miura, H. Hisaki, W. Siems and S. Oda
994–998 **Intake of Different Eicosapentaenoic Acid–Containing Lipids and Fatty Acid Pattern of Plasma Lipids in the Rats**
T. Hamazaki, M. Urakaze, M. Makuta, A. Ozawa, Y. Soda, H. Tatsumi, S. Yano and A. Kumagai
999–1004 **Properties of Monoacylglycerol Lipase in Rabbit Aorta**
M. Hee-Cheong and D.L. Severson
1005–1008 **L-Carnitine Effect on Plasma Lipoproteins of Hyperlipidemic Fat-Loaded Rats**
F. Maccari, A. Arseni, P. Chiodi, M.T. Ramacci, L. Angelucci and W.C. Hulsmann
1009–1015 **The Result of Feeding Palmitoyl Glycerol on Lymph and Plasma Lipids**
P. Trumbo, M. Sutherland-Smith, B. Kitchell and S.B. Tove
1016–1019 **Effect of Cupric Ions on Serum and Liver Cholesterol Metabolism**
M. Tanaka, T. Iio and T. Tabata
1020–1024 **Effects of Ketoconazole on Cholesterol Synthesis and Precursor Concentrations in the Rat Liver**
T.E. Strandberg, R.S. Tilvis and T.A. Miettinen
1025–1030 **Polyunsaturated Fatty Acids in Tissues of Rats Fed Trielaidin and High or Low Levels of Linolenic Acid**
P.-O. Astorg and J. Chevalier
1031–1034 **Injection of Tridocosahexaenoyl-Glycerol Emulsion and Fatty Acid Composition of Blood Cells**
T. Hamazaki, M. Urakaze, S. Yano, Y. Soda, A. Miyamoto, K. Kubota and F. Ibuki
1035–1040 **Effect of Marginal Zinc Deficiency on the Apolipoprotein-B Content and Size of Mesenteric Lymph Chylomicrons in Adult Rats**
S.I. Koo, C.C. Lee and J.E. Norvell
1041–1044 **Effects of Dietary Primrose Oil on Mammary Tumorigenesis Induced by 7,12-Dimethylbenz(a)Anthracene**
S.H. Abou El-Ela, K.W. Prasse, R. Carroll and O.R. Bunce
1045–1048 **Extraction and Quantitation of Total Cholesterol, Dolichol and Dolichyl Phosphate from Mammalian Liver**
D.C. Crick and K.K. Carroll
1049–1052 **Analysis of Disteryl Ethers**
E. Schulte and N. Weber
1053–1056 **Effects of Eicosatetraynoic Acid on Membrane Lipids of Trout Liver and Intestine**
X. Pelletier and C. Leray
1057–1059 **Short-Term Changes in Hepatic HMG-CoA Reductase in Rats Fed Diets Containing Cholesterol or Oat Bran**
M.J. Kelley and J.A. Story
1060–1062 **The Filamentous Fungus *Mortierella alpina*, High in Arachidonic Acid**
N. Totani and K. Oba
1062 **Erratum**
1063 **ANNUAL INDEX**
1077 **Author Index**
